The screenshot shows the 'Add' window in macOS, which is used for adding new printers. At the top, there are three tabs: 'Padrão', 'IP', and 'Windows'. A search bar is located at the top right, containing the letter 'G'. Below the search bar, a table displays the search results. The first result is 'Impressora GD32 Microelectronics POS USB2.0 Pesquisa' with a type of 'USB'. Below the table, there are three input fields: 'Nome' (Impressora GD32 Microelectronics PoS USB2.0 2), 'Localização' (EDI), and 'Uso' (ETIQUETA). An 'Adicionar' button is located at the bottom right of the window.

Nome da impressora	Tipo
Impressora GD32 Microelectronics POS USB2.0 Pesquisa	USB

Nome: Impressora GD32 Microelectronics PoS USB2.0 2

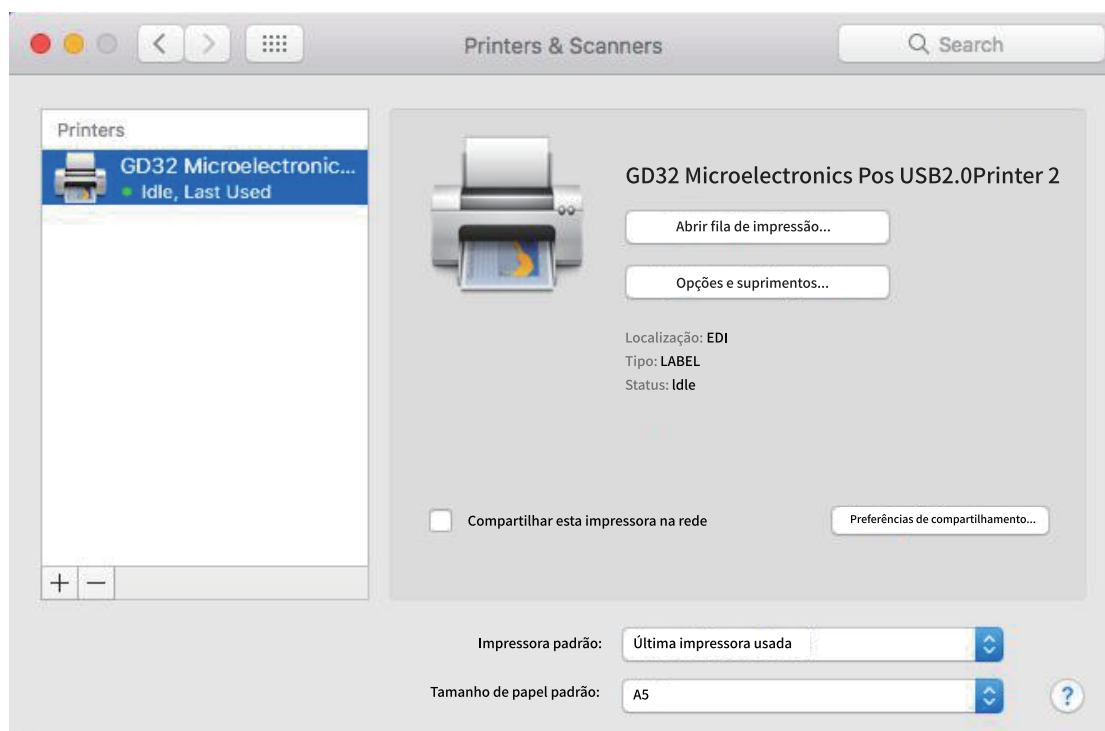

Localização: EDI

Uso: ETIQUETA

Adicionar

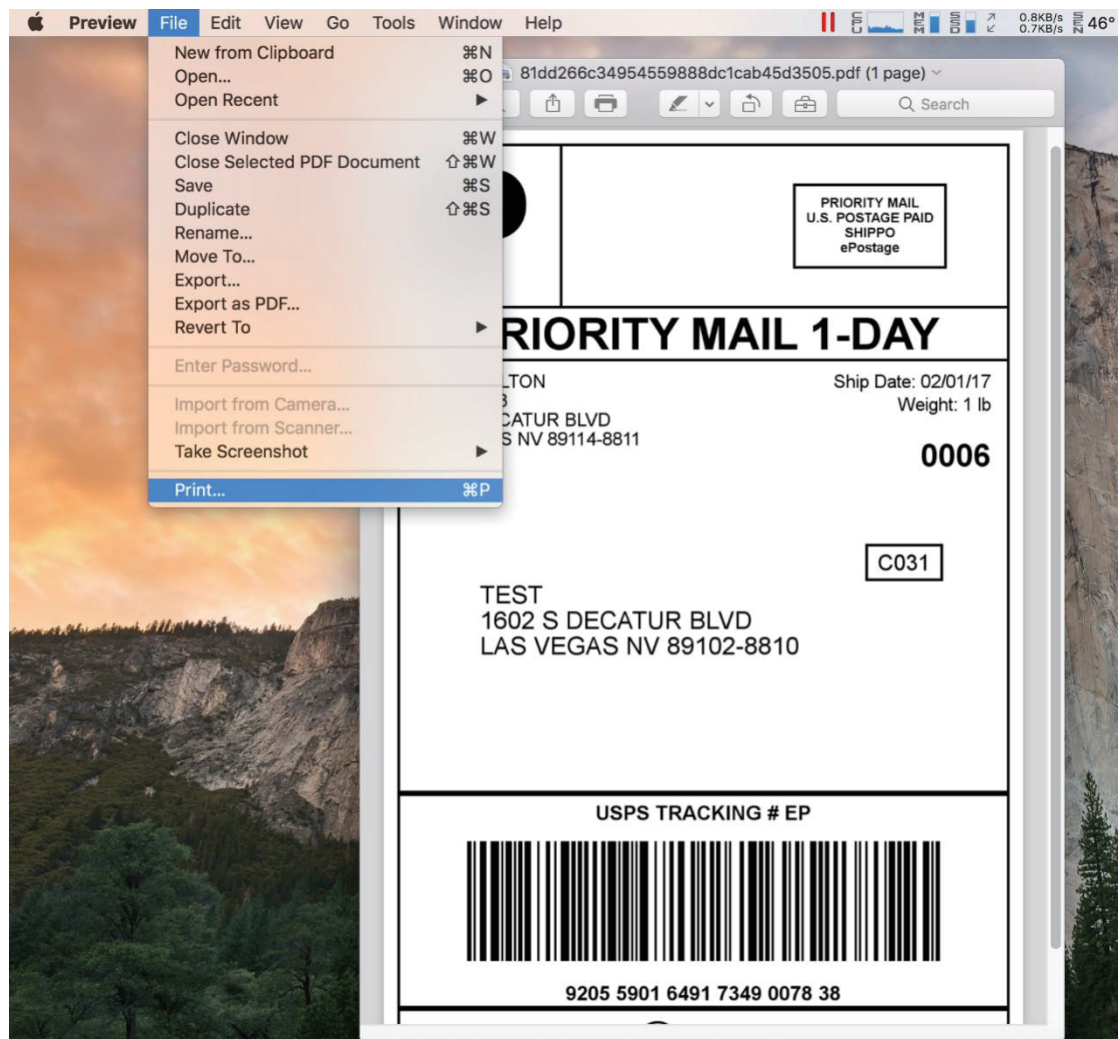

12. use o Touch ID ou digite sua senha.

13. finalizar.

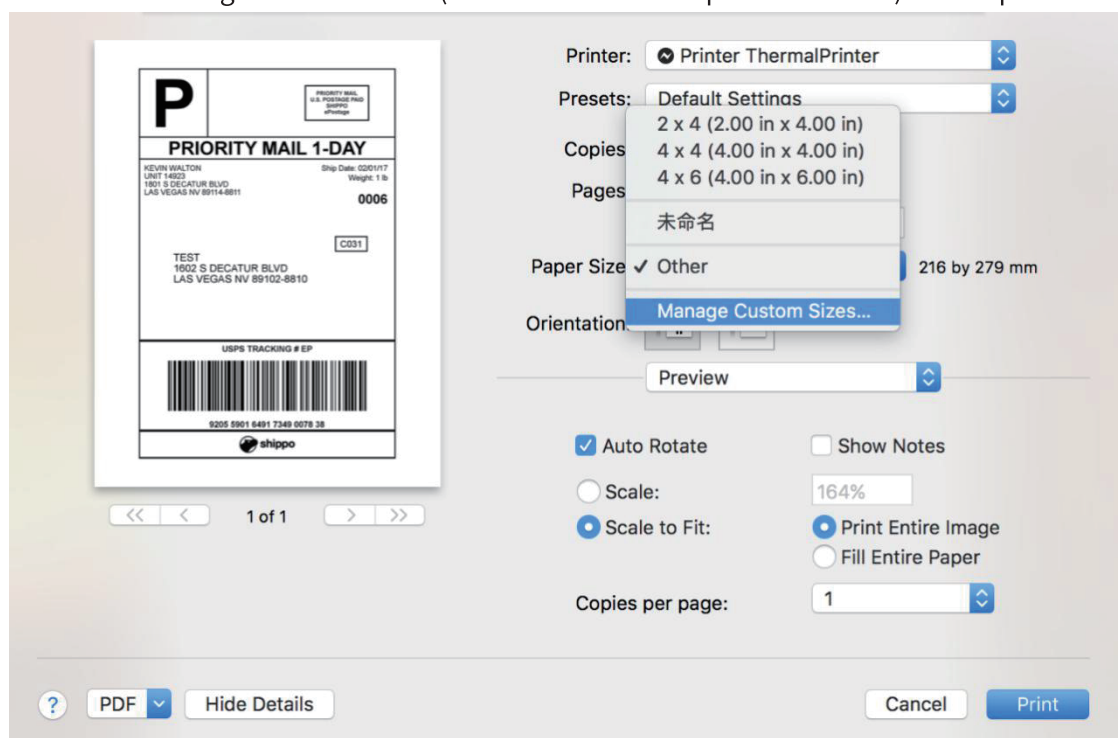

Como alterar a configuração da impressora e como definir o tamanho da etiqueta (Priview)

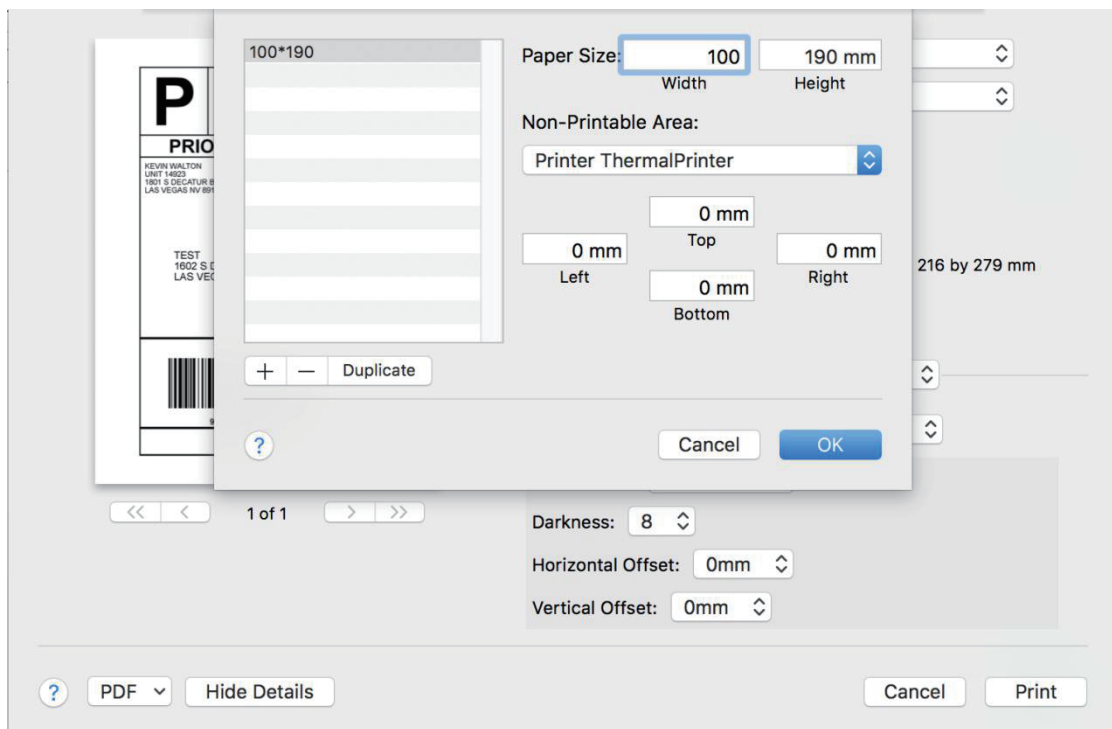

1. Abra um arquivo PDF (qualquer arquivo de documento serve), selecione “File” --> “Print”.

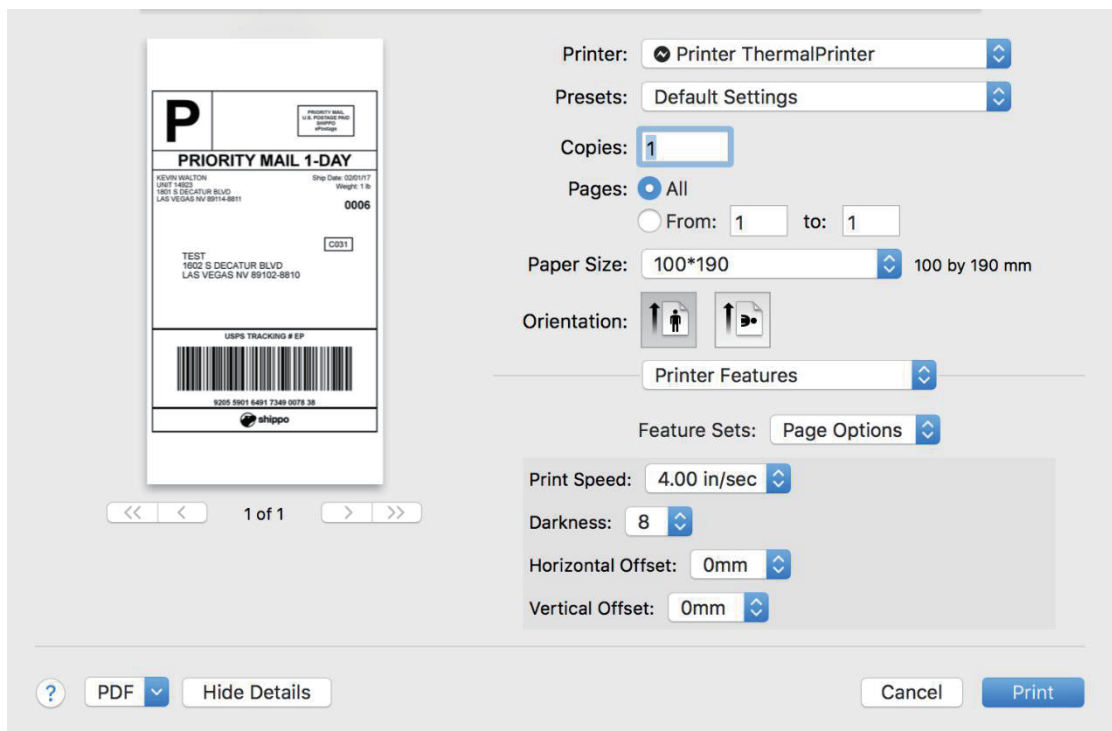

2. Escolha “Manage Custom Sizes” (Gerenciar tamanhos personalizados) em “Paper Size

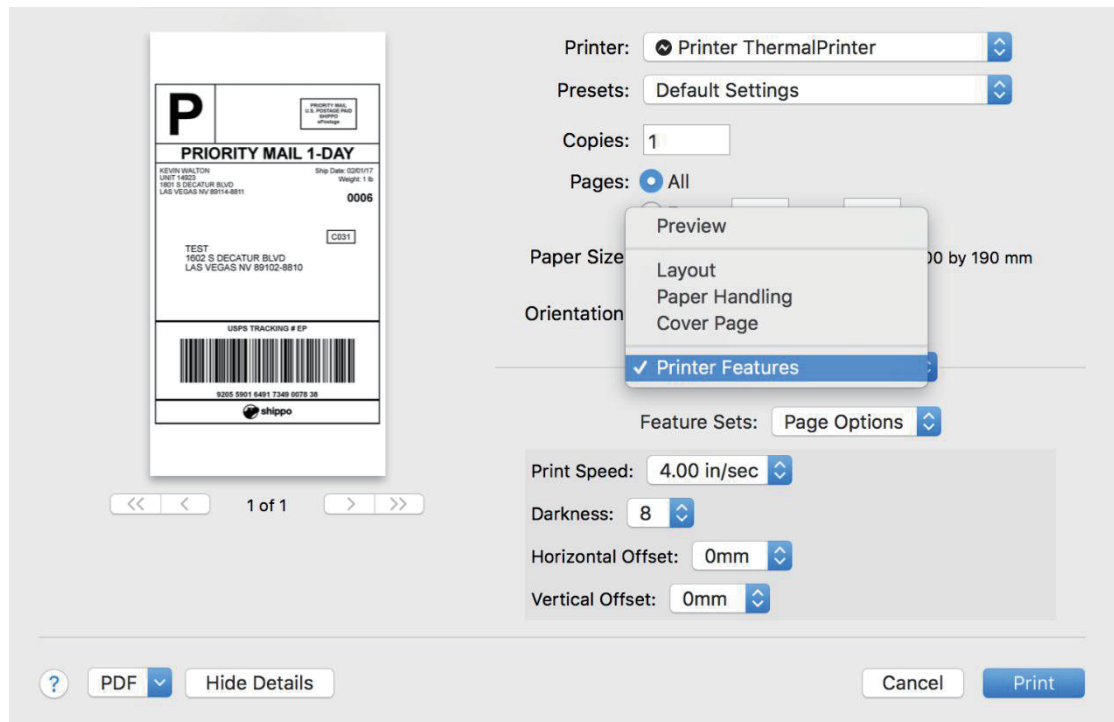

2. clique em “+” para definir um novo tamanho de etiqueta e clique em “OK” para salvar.

3. você pode selecionar o novo rótulo “100*190” agora

4. Selecione “Printer Features” (Recursos da impressora) e, em seguida, você poderá alterar a configuração da impressora, por exemplo: velocidade, escuridão...

5. clique em “Imprimir”.
